

Welcome to Personalized Medication Guidance from WithMe Health

Good news! Your company is investing in your health. Your pharmacy benefits are now managed by WithMe Health. WithMe Health is a modern replacement for pharmacy benefit managers (PBMs) that focuses on improving your health and saving you money.

Most members will not experience any changes to their medications, and you should still be able to use your preferred retail pharmacy. WithMe Health's broad network includes more than 68,000 pharmacies, including all major national chains.

To get the most out of your membership, we recommend using the WithMe App. The guidance and information you find in the app is tailored specifically to you. It's free and easy to download: simply visit go.withmehealth.com on your smartphone.

Why use the WithMe App?
